

I do not believe the NAB should impose its restrictions on satellite radio. I am a subscriber of XM radio and love it. I pay a monthly fee and should be allowed to enjoy the benefits it offers to me and many others. It seems that this is the same as what network tv tried to do to stop cable tv many years ago. See where it got them. Satellite radio has a lot to offer for people like me who like to travel. Please put a stop to NAB's petition 04-160 and allow XM to provide the kind of programming the public wants and demands.

Thank you,
Steve Eby
